VIRTUAL DOLPHIN THERAPY SYSTEM

Imagine offering your guests the healing therapy of dolphins by virtually taking them into the waves to be soothed and inspired by the sights, sounds and sensations of the dolphin world.

THE TREATMENT

Virtual Dolphin Therapy™ is multi-sensory experience that will help your guests reach a state of total relaxation unlike anything they have ever tried. It offers many of the healing qualities of a dolphin encounter in a treatment that has been scientifically designed to recreate the experience.

Simple and Effective with little staff time required!

Incorporating the same Sensory Resonance technologies that professionals and non-professionals have used for music and Vibroacoustic therapy, Virtual Dolphin Therapy™ recreates an underwater sanctuary of peace and beauty to stimulate the senses.

Guests lay on a **Tranquility Sound & Water Table** designed to send music and sound as vibrations through the body. They wear a headset and listen to relaxing music, the sound of the ocean and wild dolphin echolocations while being guided through an uplifting meditation. (DVDs available with or without meditation)

These sounds and vibrations are of dolphins in their natural habitat. Guests views serene images on a screen located on a wall above the foot of the table.

- ✓ **Virtual Dolphin Therapy™ provides relaxation and healing for a client's mind, body and soul.**
- ✓ **A Dolphin Therapy Room provides new opportunity to up-sell your clients, giving them a unique relaxation experience that will have them return.**
- ✓ **Offer the latest technology in Sound and Vibrational Healing to place you above the rest of the competition.**
- ✓ **Offer active clients a new fun way to relax and rejuvenate from their regular routines.**
- ✓ **Become part of the wave of holistic healing taking place in today's market.**

"The table that sent me over the top was the new InnerSoul Tranquility Sound & Water Table. It reminded me of a Samadhi Tank years ago, only much easier to use ... and you stay dry."

"Blow you away comfortable"

"That was the most amazing experience ever"

"The whole experience was ...Wow, just Wow!"

"I was completely blissed out!"

VIRTUAL DOLPHIN THERAPY CONTINUED

HOW IT WORKS FOR YOUR SPA

Just transform one of your treatment rooms (room size should be about 10' x 10') by painting the room with an ocean scene (or use wall murals) to create an atmosphere that truly makes the guest feel like they are escaping to an underwater world. Painting the room watery tones is an option; however a room that can be darkened is necessary.

EQUIPMENT

The InnerSoul Tranquility Sound & Water Table™ is at the heart of the system. Also add a LCD or Plasma TV, DVD player, audio mixer, stereo with headphones and the Virtual Dolphin Therapy™ DVD to complete the package.

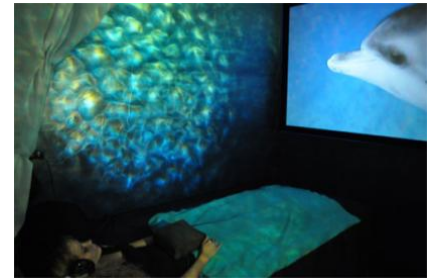

To adequately equip your room to offer this unique therapy, an investment of around \$5000 for the products and electronic components mentioned. Room décor not included.

Inner Solutions will provide a custom built InnerSoul Tranquility Sound & Water Table™, with matched amplifier, DVD player, audio mixer and headphones to meet your needs. Includes detailed user friendly installation instructions. We suggest you purchase your TV locally at Best Buy, Sam's, Wal-Mart or Sears or other retailer.

BONUS PUBLICITY OPPORTUNITY

Virtual Dolphin Therapy™ is brand new. If your spa decides to incorporate Virtual Dolphin Therapy™, it will be included in all the national publicity efforts to get Virtual Dolphin Therapy™ in the news and promoted as part of the expansion efforts of this innovative new treatment.

PROJECTED ROI

Depending on how much you charge per session, your return of investment could be captured within a year. **The beauty of this treatment is that it does not require a skilled technician to operate, which reduces your cost considerably.** The operator only needs to settle the guests on the table push a couple of buttons, leave the room and return to escort them out. **Stand out from the crowd by offering this new exciting modality to your guests.**

InnerSoul Tranquility Sound & Water Tables™

InnerSoul Tranquility Sound & Water Tables are custom built to provide style and comfort. New Advanced Technology Transducers offer the most sophisticated sound delivery system for reducing stress, alleviating physical pain and creating a space for deep meditation.

The sound gently permeates to the cells of the body allowing for a massage from the inside, as well as out. Our bodies are nearly 60% water. Water transmits the sound and vibrations very efficiently to our bodies. You float in incredible comfort on the water waves as your body is bathed in soothing sound and relaxing vibrations.

Inner Solutions LLC and Vibroacoustic Expert Stephen Deuel have been developing and building vibroacoustic tables, mats and chairs for over decade, with worldwide distribution. For more information on Vibroacoustics and Vibrational Therapy devices, see our website at www.vibroacoustic.org

Developers:

Virtual Dolphin Therapy™ was developed by Brenda Burger, owner of La Quinta Healing Arts Spa in La Quinta, CA.

The InnerSoul Tranquility Sound & Water Tables™ are created by Stephen Deuel and Inner Solutions LLC - World Leaders in Vibroacoustic Technology - "Sound You Can Feel".
